Content & Narrative Lead · Web3, DeFi, Validators, GameFi

Hyderabad, India · abhishekk711@gmail.com · Oxabhishek.xyz · LinkedIn

SUMMARY

Web3 content and narrative strategist with experience across **validator ecosystem**, DeFi, exchanges, IDO campaigns, and GameFi launches. I work in categories where the product is technically dense, trust-sensitive, or easy to misunderstand — turning protocol complexity into clear positioning, launch-ready messaging, thought leadership, and community-facing content systems. Built trust-led content for a Cosmos validator supporting **15 new chains**, **26% AUM growth**, and staker growth from **6,700 to ~10,000**; co-authored the first **whitepaper** iteration for an illiquid-asset pricing oracle; and helped shape the launch narrative and **lore architecture** behind a Genesis NFT drop.

CORE STRENGTHS

Narrative Strategy · Protocol / Technical Writing · Whitepapers & Litepapers · GTM / Launch Messaging · X / Twitter Strategy · Editorial Strategy & Content Calendars · Thought Leadership · Validator / Governance Communications · Community Activation · SEO & Search-Led Content · Newsletter / Email Editorial · Cross-Functional Collaboration

EXPERIENCE

Encapsulate.xyz · Content & Social Media Lead

Sep 2024 – Dec 2025

- Led content and social strategy for a Cosmos validator, turning governance participation, staking education, chain onboarding, and validator visibility into a trust-led growth narrative across X, blog, and ecosystem touchpoints.
- Helped support **15 new chains** onboarded, **26% growth** in staked AUM past **\$500M+**, and staker growth from **6,700 to ~10,000** during a **six-month stint**.
- Built public-facing thought leadership around staking, validator selection, and governance voting, making operational credibility legible to delegators, protocols, and peer validators.
- Shifted social from a passive validator feed into a more opinionated operator voice through vote-rationale posts, staking education, and ecosystem-native collaborations.

Reverse.io · Editorial Executive

Mar 2022 – Jul 2024

- Built segmented content systems for a Web3 gaming ecosystem spanning developers, gamers, and project stakeholders, supporting product communication, ecosystem updates, and growth content.
- Helped architect the Genesis NFT Drop narrative across teaser strategy, utility framing, FAQs, influencer/newsletter collaboration, PR, SEO, and social cadence.
- Contributed to the **world-building and lore architecture** behind Reverse — including Darkrage, Frostshield, and The Noble — giving the drop stronger identity and post-mint narrative depth.
- Supported a content strategy that contributed to onboarding **3,500 developers**, **500 organizations**, and **220 games** in one year.

Lithium Finance · Content Strategist

Feb 2021 – Feb 2022

- Co-authored the first **litepaper** iteration for a **collective-intelligence pricing oracle** built for private and illiquid assets, helping shape the foundational narrative around one of DeFi's hardest categories.

- Extended the educational layer through vernacular explainers and lighter-format videos in Hindi, English, and regional formats to reduce comprehension friction for a technically dense protocol.

Blockwiz · Content Writer / Associate**Oct 2020 – Jan 2021**

- Built the internal content strategy for Blockwiz's own marketing, positioning the firm as a HubSpot-style content hub for Web3 marketing, with business value tied to client signups and demand generation.
- Wrote and packaged SEO-led, narrative-led content across blogs, newsletters, website copy, and marketing collateral for both internal brand growth and Web3 client-facing needs.

SELECTED WEB3 ENGAGEMENTS

KuCoin Exchange · Contributing Editor

- Owned weekly newsletter and editorial planning, delivering a **22% open rate** and **12+ articles trending in-app** through stronger editorial timing and content packaging.

GameStar Exchange · Content Manager

- Helped engineer the \$GMS IDO narrative contributing to a **full sellout in under 6 hours**; built a cross-channel content engine driving **400% Medium growth**, **3x X growth**, and **2x Instagram growth**.

Easy Energy Finance · Content Strategist

- Developed market-facing narrative for a DeFi / climate-finance proposition, clarifying a technically dense story into credible, understandable messaging.

SugarBounce · Content Strategist

- Supported IDO-facing launch messaging and campaign storytelling built for crypto-native attention spans, project recall, and stronger community pull.
